# MDR Essentials

## Stop attackers in their tracks with 24/7/365 expert-managed detection and response

Deepwatch Managed Detection and Response (MDR) Essentials gives you an affordable solution to build the security operations program you deserve. In minutes you'll be set up and getting the protection of an expert-staffed, best-in-class SOC.

## Why deepwatch

Today, securing your organization is harder than ever. With the growth of remote workforces and increased reliance on third parties, the attack surface continues to get larger and more porous. Defending against relentless attackers requires specialized expertise, costly technology, and constant vigilance.

Deepwatch helps secure organizations by finding and stopping cyber-attacks using its automated cloud-native SOC platform, backed by a world-class team of security experts who monitor, detect, and respond to threats 24/7/365.

With Deepwatch, gain peace of mind that your business is continuously protected by the industry-leading detection platform backed 24/7/365 by a team of expert analysts.

## MDR ESSENTIALS OVERVIEW

Designed to meet the needs of small and mid-sized organizations, Deepwatch MDR Essentials provides the critical detection and response capabilities that enable even the smallest security team to effectively and efficiently protect your organization-wherever they may be. With MDR Essentials, gain the round-the-clock security of an always-on SOC managed by a team of security experts — for less than the cost of hiring one analyst.
